

It's time to take a closer look...

...at REACH!

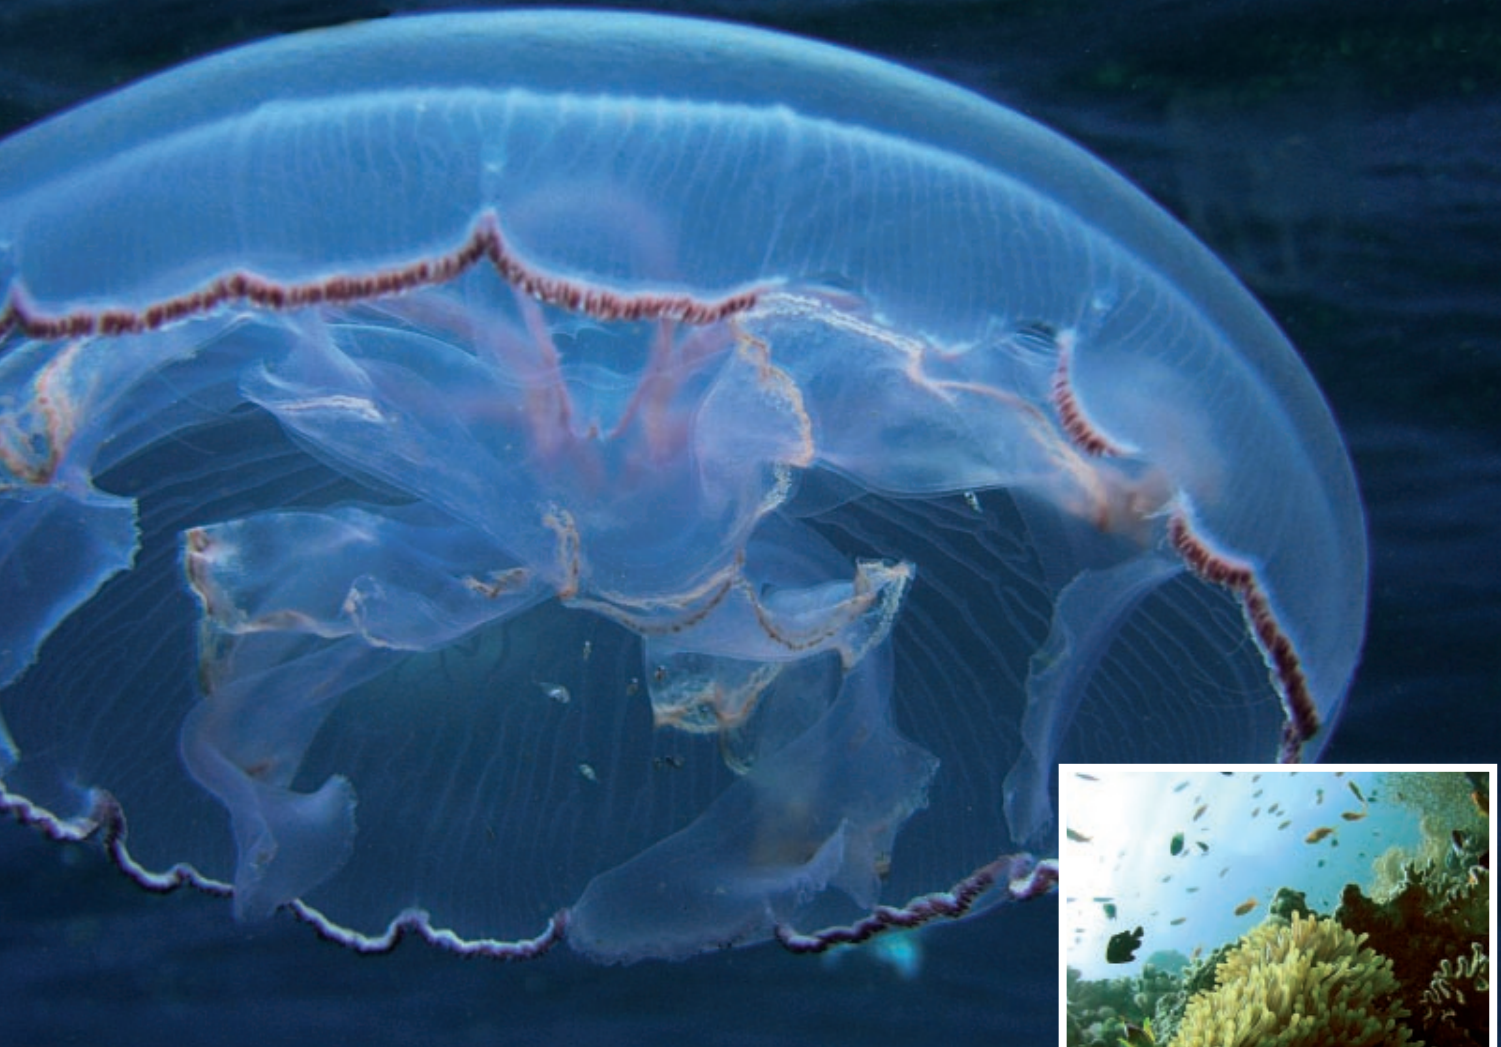

Caring

SABIC fully endorses the REACH objectives, which aim to reduce the footprint of chemicals on our environment and on our health.

Through REACH, we will make a positive contribution to our common future.

...at REACH!

Preparing

SABIC is well on its way to being ready for REACH. We have the processes and people in place to provide high-quality dossiers on time for all the substances in our portfolio.

Beyond meeting today's requirements, SABIC's efforts are safeguarding our ability to answer the needs of future generations.

SABIC + REACH:

Caring, sharing & preparing

SABIC cares for the safety and health of people and the environment. We fully agree with the REACH goals, which are focused on decreasing the adverse impact of chemicals.

This commitment is evident in our actions. We are proactively pursuing REACH implementation by openly and cooperatively sharing information and industry best practices.

By preparing early for REACH, we aim to provide high-quality dossiers on time for all the substances in our portfolio, for the benefit of all.
